

{#if ...}

```
{#if expression}...{/if}
```

```
{#if expression}...{:else if expression}...{/if}
```

```
{#if expression}...{:else}...{/if}
```

Content that is conditionally rendered can be wrapped in an if block.

```
{#if answer === 42}
  <p>what was the question?</p>
{/if}
```

Additional conditions can be added with `{:else if expression}` , optionally ending in an `{:else}` clause.

```
{#if porridge.temperature > 100}
  <p>too hot!</p>
{:else if 80 > porridge.temperature}
  <p>too cold!</p>
{:else}
  <p>just right!</p>
{/if}
```

(Blocks don't have to wrap elements, they can also wrap text within elements.)
