SVELTEKIT • REFERENCE

@sveltejs/kit/node

ON THIS PAGE

```
import {
  createReadableStream,
  getRequest,
  setResponse
} from '@sveltejs/kit/node';
```

createReadableStream

Converts a file on disk to a readable stream

```
function createReadableStream(file: string): ReadableStream;
```

getRequest

```
function getRequest({
  request,
  base,
  bodySizeLimit
}: {
  request: import('http').IncomingMessage;
  base: string;
  bodySizeLimit?: number;
}): Promise<Request>;
```

```
	res: import( "http" ).ServerResponse,
	response: Response
): Promise<void>;
```
